Judges Hunt and Shipman ruled that the motion for dismissal should be heard first, and that all arguments on that question, and demurrers must be closed by to-morrow night. Rolland G. The Financial Excitement in New York—More of The Jay Cooke Failure—The Reported Cause—The National Life Insurance Company Expected to Go Under With Cooke—The London Branch "In tact."

NEW YORK, Sept. 18.—There is great excitement in consequence of Cooke's failure. The question is who next? Business men attribute the failure to operations in the North Pacific Road.

It is feared the National Life-Insurance Company will go under with Cooke. It is said Jay Cooke lost largely in gold. Members of the firm say they are unable to make any further statement save that they expect to resume business in a short time.

LONDON, Sept. 18.—The firm of Mr. Cooke responds to his suspension by stating that all drafts and letters of credit on them issued by Jay Cooke & Co., will be duly honored.

LATER.—Jay Cooke & Co. make the following statement: The immediate cause of the suspension of Jay Cooke & Co. was the large drainage upon them by their Philadelphia House and their own depositors during the last fortnight. Both houses have suffered a large drain upon their deposits, in consequence of an uneasy feeling which has recently prevailed and which has effected more or less all the houses closely identified with the new railroad enterprise. The Philadelphia House had previously been weakened by a large quantity of cash advanced to the Northern Pacific Railroad Co., of which they are the financial agents.

The business of Jay Cooke, McCulloch & Co., of London, is entirely distinct and that house is perfectly solvent, so that it will meet all its outstanding drafts and letters of credit without inconvenience to travelers, and have a large cash surplus to apply to the American house. The firm of Jay Cooke & Co. and its members have a large amount of real and personal property, upon which, however, they cannot immediately realize. They are confident that depositors will be paid in full.

LATEST.—All reports about the suspensions of firms excepting Jay Cooke & Co., Richard Schell and the small firm of Robinson & Suydam, upon investigation have proved to be without foundation. When the falsity of these rumors was made known on the street a confidence was again restored, and at the close of business a stronger feeling prevailed. It is not thought that any other firms of prominence will succumb.

Another Suspension.

PHILADELPHIA, Sept. 18.—E. W. Clarke & Co., Bankers have suspended.

DEATH OF OFFICERS FROM YELLOW FEVER.—First Lieutenant Jas. Edward Bell, of the United States army, died at Dry Tortugas on the 11th inst., of yellow fever. He was a son of Col. J. Warren Bell, of this city, and was born in the State of Tennessee on the 5th of March, 1844. He graduated at West Point Military Academy in 1867, was commissioned a lieutenant in the 1st artillery, and was thereafter promoted to first lieutenant.

Lieut. Commander A. N. Mitchell, commanding the Pawnee at Key West, died on board that vessel Sept. 14, of yellow fever. No information has been received at the Navy Department of any other cases having appeared on the Pawnee or the Saugus.—*Wash. Star.*

It is reported that Senator Sumner will begin to lecture on his new subject in about five weeks, and will deliver it four or five times a week until the opening of Congress, if his health permits, as he believes it will. On the first day of the session he will introduce again his civil rights bill. He expects to give full attention to his Senatorial duties.

Mr. Henry Harold Brookes, an Englishman in San Jose, got caught in a matrimonial advertisement, spent $190 to relieve his unseen love from the tyranny and parsimoniousness of her imaginary father, and then got frightened out of town by anonymous letters, embellished with cheerful coffins and lively skulls.

A movement, not yet well defined, has been started in the States of the Northwest, looking to a convention of representative producers of that section of the country, to be held in some central locality this fall. The Chicago papers are urging that it be held in that city during the Exposition.

It is singular what a little thing will put a man out. A Jersey City lawyer was making a high-flown speech the other day, telling about angel's tears, when his Honor said: "Confine your remarks to the dog-fight case." The lawyer sat down.

HYMENEAL.—Alfred A. Thompson, Esq., of Chatham, was united in marriage yesterday morning to Miss Laura Love of this city. The ceremony was performed by the Rev. Dr. Mason, at Christ Episcopal Church in the presence of a brilliant congregation. The happy pair left immediately after the services on a bridal tour North, being escorted by their male and female attendants to the Raleigh and Gaston Railroad Depot. May they ever be as happy as now.

FREE RIDE.—The selling Committee of the Agricultural Society will provide comfortable coaches for the accommodation of those who wish to invest in the valuable real estate offered for sale to-day in twenty lots, opposite the new Fair Grounds. This is an important sale and an excellent opportunity is offered for a safe investment. The train will leave the foot of Hargett street at 9½ o'clock. Free to all.

THE FAILURE OF JAY COOKE, & CO.—The announcement of the failure of the mammoth firm of Jay Cooke, & Co., the largest and most extensive banking establishment in the world, in the telegraphic columns of the NEWS yesterday evening created quite a sensation in business circles, but we are pleased to learn that not one of our city banks will suffer even embarrassment by the failure. A general depressing effect on the money market will necessarily occur throughout the country as the ramifications of this house extend every where. The cotton market will also suffer by this calamity, but it is to be hoped that it will only be temporary.

COMPLIMENTARY.—The *West-Carolina Record* thus hails the appearance of the DAILY NEWS in its new dress:

"Here is that spicy, wide-awake sheet the DAILY NEWS, brim full, as usual. Much energy and talent is exhibited in the getting up of this paper, especially the news department, and we would miss it more than any other exchange.

We congratulate the NEWS for the success with which it is meeting—it has recently come out in a new dress—and now new subscribers for the Daily and Weekly are being received from all parts of the State."

RETURNED FROM VIENNA.—The Washington *Republican* of yesterday contains the following announcement:

'Col. J. G. Hester, of North Carolina, arrived in the city yesterday, *en route* to his home from a recent visit to Vienna and other attractive points in Europe. The Colonel in his day has had "somewhat to do" with the political affairs of the South.'

His connection with politics in the South was as Deputy U. S. Marshal during the last (N. C.) State campaign and the *Republican* has well said he did have "somewhat to do" with politics as Secretary Boutwell can testify.

THE GRAND GIFT CONCERT.—A list of the many articles of value to be distributed to ticket holders at the approaching State Fair, is published in the advertising columns of the NEWS to-day, and a capital opportunity for the lucky ones is herein offered. A one dollar ticket may draw $2,500 worth of property, and it may draw less. We shall reach for the top limb with our $1 investment. From the names of the gentleman comprising the committee to superintend the drawing, it will be seen that everything will be conducted upon a strictly legitimate basis, and luck (if there is such a thing) will be the only instrument of favor.

In addition to the gifts mentioned in the list, others are arriving every day, and the number is reasonbly expected to be very large by the day of distribution.

Tickets are only $1 each, and to be had of J. J. Litchford or his agents.

HEBREW NEW YEAR.—To-day begins the Hebrew New Year, or, according to the Jewish calendar, the first day of the year 5,634 since the creation of the world. This is the most important festival of those of the ancient faith. It will be the first of the month Tishri, which begins the sacred year, the civil year beginning with the month Nisaw, and dates from the day when the hosts of Israel achieved their independence of Pharoah, and resumed their position as a nation. During the month Tishri there are several important holidays. After the festival of the New Year will follow the days of repentance, which immediately precede the Day of Atonement, which occurs on the 10th day of the month. At this time all differences, of whatever nature, are settled, and the occasion is one of much solemnity. Four days after the atonement the feast of Tabernacles will begin and continue for eight days. Formerly, and at the present day, the Hebrews dwelt in tents erected on their premises. After the feast of Tabernacles comes that of Rejoicing over the Law, that law which was transmitted by Moses.

The New Year's Day is also called the Day of Rememberance and the Day of the Trumpets. The writings of the ancient rabbis speak of it as the day upon which order was born out of chaos, and as the prelude of the Day of Judgment, when all flesh will be called before the Lord of Hosts and receive its reward or punishment. Old traditions allude to it as the day upon which all mankind are to be judged, when the fate of each living being for the next twelve months is inscribed in the Book of Life. The prayers upon the occasion are for the acknowledgement of the Creator by all mankind, and the cessation of strife among the nations of the earth. Then songs of praise for the omnipotence, glory and majesty of the Supreme Being, followed by supplications for the banishment of error, superstition and unbelief and the establishment of the reign of justice, truth and righteousness.

The "shofor," a straight horn of the ram, is blown upon the festival, symbolical of the creation of the world, of the last day of judgment, the gathering of mankind to the belief in one God. This festival, surrounded as it is by so many traditions, is celebrated in a most solemn manner. The Hebrew month, Ellui, preceding Tishri, is a month of preparation; prayers of repentance and confessions of transgressions are recited. The last week of the month is particularly observed among pious Hebrews: services, beginning at five or six o'clock in the morning, are held in the synagogues. The ram's horn is then blown, as if reminding the transgressors to cease from their wicked ways and repent.

NEW ADVERTISEMENTS.—The attention of our readers is called to the new advertisements that appear for the first time in the NEWS to-day.

Zacharias & Co., the enterprising dry goods merchants of No. 31 Fayetteville street, advertises the arrival of their immense stock of dress goods, notions, domestics, boots and shoes, ready made clothing, etc., etc. This firm has exhibited much energy and taste in the improvement of their business stand, which is now one of the handsomest stores in the city, and upon merit alone have built up a large trade. They have a large and attractive stock which is well worthy of an examination and inspection.

Wyatt, Green & Co., of Exchange Place, announce the arrival of their Fall and Winter stock of general merchandise embracing every attraction in their line. This firm of enterprising young men merit a liberal share of public patronage, and are eminently worthy of all they get. They will sell as cheap as the cheapest and guarantee all their goods. Farmers and others would do well to examine their stock.

Weikel, the merchant tailor, whose reputation as a cutter and fitter, is second to none in the State, announces the arrival of his Fall and Winter stock of cloths and cassimeres and his readiness to receive orders for suits, etc. Those in need should go and examine for themselves.

R. H. Battle, Jr., Esq., advertises for sale the residence of the Hon. S. F. Phillips in this city. As stated in the advertisement this is one of the best locations in the city, and a rare opportunity for investment is offered in its sale.

The Salisbury Fair announcement by B. F. Rogers Secretary.

Wood and Coal delivered in the city by R. O. Shelburn.

The Grand Gift Concert at the approaching State Fair.

MERCANTILE INTELLIGENCE.—Maj. R. S. Tucker returned from New York yesterday evening. His immense stock is also arriving, embracing many of the importations made by Col. Tucker while in Europe.

Col. W. H. H. Tucker arrived in New York from Paris and London on the 10th inst., where he will remain till his entire stock arrives in that city.

M. T. Leach, Esq., of the firm of Leach Bros., left for New York yesterday morning for the purpose of purchasing his fall and winter stock. The advertising columns of the NEWS will announce their arrival.

A. C. Sanders, of the firm of A. C. Sanders & Co., will leave in a day two for the Northern markets.

Whitaker & Thompson is a new firm that will occupy the stand of Williamson, Upchurch & Thomas, when that firm goes into its new building. Mr. Thompson left for New York this morning.

THE SALISBURY FAIR.—B. F. Rogers, Esq., the Secretary of the Salisbury Fair Association arrived in the city yesterday from a visit to Goldsboro and other points in the interest of this Fair. We are pleased to learn from him that every indication points to an unprecedented success of this, the first of our State fairs. Liberal arrangements has been secured for railroad transportation and every body can go at a small cost, and we hope to find everybody there. We shall be on hand as the NEWS reporter, that is, if our friend Brown of the Boyden House, will save us a sleeping place. The fair will commence on the 7th. For further particulars see advertisement in this issue of the NEWS.

MUSIC IN HIS SOUL.—We thought that Caldwell of the Charlotte *Observer* was in a bad way, and therefore recommended a suitable diet for him. We learn from a private source that he is improving and is in a fair way to recover.

But Avery, the talented Associate of the Piedmont *Press* has been lately attacked—and we fear that his is a hopeless case. Listen how he talks about the Morganton Concert. His account will be found decidedly edifying and shows that he was completely carried up to the "heavens" by the *divine* singing. Hear him:

CONCERT FOR THE ORPHANS.

"Now 'tis all instrument!
Now 'tis a lonely lute!
Now 'tis an angel's song
That makes the heavens be mute."

The accomplished young ladies who are engaged in a noble effort to raise funds for the Orphan Asylum of North Carolina, gave one of their charming concerts in Morganton, on the evening of the 5th inst. As the musical education of the Associate has been sadly neglected, he will not attempt a professional *critique* of the performance. Even had he a "tongue for flattery" he would have to be mute on this occasion for the artists chisel cannot adorn the water lily, neither do we pour cologne upon violets—*perfection cannot be flattered.*

The music was simply sublime and the musicians!—well! one is a *minnie-ture* angel and the other has a heavenly *carrie-J.* Notwithstanding the unpromising state of the weather a large and appreciative audience were in attendance. They realized $50.00—a right handsome sum for Morganton with only 500 inhabitants.

Gov. Vance in a few happy remarks introduced the ladies to the audience. Mrs. Julia McDowell, Miss Julia Sheetz, and Capt. G. P. Erwin, of Morganton, and Major L. P. Erwin, of the Newton *Vindicator*, took part in the performance.

THE NEW CHARLOTTE AND ATLANTA AIR-LINE.—A late number of the Memphis *Appeal* has the following:

"The great southern mail route of the reliable Memphis and Charleston railroad is now offering unusual inducements for emigrants coming from Virginia, North Carolina, Georgia and South Carolina. This road gives through-tickets at very low rates to Arkansas, Texas, Missouri, and to all points west of the Mississippi. Safety, speed, comfort and reliable connections, with all desired information, are the features that characterize the excellent management of this road. Emigrants are passed through on the same trains as other passengers, and occupy equally as good coaches. The Southern Express Company will extend its lines by this route to Texarkana."

This route is at present represented in this State by Mr. J. M. Hines, the Southwestern agent of the Memphis and Charleston and Texas Short Line, who is engaged in the endeavor to bring his line before the traveling public and those imigrating to the Southwest. The new Air-Line Road from Charlotte, N. C., to Atlanta, Ga., gives a more rapid transit to the South and Southwest than was formerly enjoyed, and at the latter place connects with the old established lines between the trans-Mississippi and the Eastern States. The Air-Line is under the management of Col. B. Y. Sage, General Superintendent, to whose energy is attributable the building of the road. The attention of travellers is invited to this line.

THE VOTE ON THE CONSTITUTIONAL AMENDMENTS.—The late vote on the Constitutional Amendments, leaving out the counties of Camden and Polk, which have not been heard from at the office of the Governor, and counting Dare from report sent us—this county having furnished no official statement as yet—stands as follows:

Our largely increased trade in this line giving us facilities for the constant handling of fresh Teas, which are selected with particular reference to their drawing qualities. THE DAILY NEWS.

JORDAN STONE, Managing Editor.
SAM'L T. WILLIAMS, Political Editor.

FRIDAY.....SEPTEMBER 19, 1873.

MEMPHIS had nine deaths from Yellow Fever yesterday.

LUSTROUS—Glowing—Brief—the President's speech at Pittsburg.

THE failure of JAY COOKE & Co., of New York, will cause a sensation in Northern financial circles.

THE Greensboro *Patriot* credits to the Richmond *Whig* an article taken from the editorial columns of the RALEIGH NEWS, in regard to Federal interference in State elections.

PROF. WISE and the *Graphic* are now quarreling over the balloon *fiasco*. But the *Graphic* has pocketed all the money, and Wise gets nothing—but abuse. A son of the Professor comes to the relief of his father and denounces the GOODSELLS as swindlers.

THE town of Hickory, Catawba county, is making rapid strides in its career of progress and improvement. For its present auspicious prospects it is indebted to the establishment in its midst of a live, active, reliable and well conducted newspaper, the *Piedmont Press*.

RALEIGH offered pecuniary aid to Boston at the time of her disastrous conflagration. A Southern city is now stricken down with a plague, and contributions from the North are pouring in to assuage the suffering of the afflicted. Will Raleigh refuse her mite?

THE Washington *Republican* comes boldly to the defence of ALEXANDER R. SHEPHARD, who has been recently appointed by the President, Governor of the District of Columbia, and who has been so bitterly assailed by the New York *Herald* and *Tribune*. The *Republican* is as eulogistic as the *Herald* and *Tribune* are denunciatory.

Contributions are in great demand for the Shreveport sufferers. New York has sent forward four thousand dollars and other cities are moving. Will not Raleigh do something for a Southern town that is smitten with an awful pestilence.

When Boston was visited by a terrible conflagration, there was a public meeting of our citizens and offers of pecuniary assistance made.

Now when Shreveport suffers from a visitation more dreadful than fire, shall there be no response to her cry of agony and distress?

THE dreadful accident on the Charlotte, Columbia and Augusta Road, which was reported in our telegraphic columns yesterday morning, must have been occasioned by mismanagement. The collision occurred about five miles above Columbia, in the day time, about nine o'clock in the morning. That more persons were not killed and wounded is a little remarkable.

It is inconceivable to us that an accident of that character can ever take place without criminal carelessness on the part of Railroad officials. The matter should be thoroughly investigated and the responsibility placed where it ought to belong.

OUR Farmers will be glad to learn that the Commissioner of Internal Revenue holds, that planters engaged in making a crop of any kind on shares, and who furnish their hands with tobacco, are not liable for the special tax imposed on dealers in manufactured tobacco, *provided* such supplies in tobacco are to be paid for out of the proceeds of the crop. The law imposes a special tax on all persons whose business it is to sell or offer for sale manufactured tobacco. The Commissioner is of the opinion that planters who furnish their hands with tobacco, to be paid for out of the crop produced, are not contemplated by the language or spirit of the law.

People's Agricultural and Mechanical Association.

We have received the premium list of the second annual exhibition of the People's Agricultural and Mechanical Association, to be held at Hickory, N. C., on October the 29th, 30th and 31st. On looking over the premiums, we were pleased to see that mechanical implements and manufactured articles occupy a conspicuous position. For mechanical implements alone, there are as many as fifty-three different premiums offered, and for manufactured articles forty-eight different premiums are offered. In the Floral Hall department, seventy-eight premiums for the several articles specified will be awarded to the successful competitors. The other departments are not neglected. Live Stock, Trials of Speed, Poultry, Horticulture, and the Domestic department claim a fair proportion of the prizes, and on the whole the list is well arranged and in good taste. The premiums are small it is true, but their pecuniary value is not the chief incentive that should stimulate the farmers and mechanics of the Catawba section to compete at the exhibition. The purpose to advance the interests and promote the objects of the Association, and to exhibit to the public the rich products of our western section, is a most laudable one and we trust it will be eminently successful.

IN two weeks, over two hundred persons have died of Yellow Fever in the lately prosperous and energetic little city of Shreveport, Louisiana, and the latest reports state that there is no abatement of the disease. There is a death every hour. Great sympathy is everywhere felt for the afflicted. But mere sympathy will not help them now.

Men, women and children are dying by the hour. Shreveport is one vast scene of suffering, desolation and death.

Will not Raleigh respond to the agonizing appeal for help which comes from the distant South?

When Boston was in distress, the Mayor of Raleigh sent a dispatch of sympathy and proffered assistance. Shreveport is now visited by a calamity far more appaling and destructive.

WAS DEAVER fired on? "That's the question." The *Piedmont Press* comes to the rescue, and from the certificates published in that paper from well-known citizens of Burke, it proves conclusively that DEAVER'S statements that he and his detachment were fired on in the South Mountain section are base fabrications—manufactured solely by himself and his men for the most wicked and malicious purposes. The *Press* publishes affidavits, taken before Justices of the Peace of Burke county, of twenty persons of that county, to the effect that they believe the statements made by the officials, in regard to DEAVER and his men being fired on, to be false and unfounded. Several of the citizens who gave these sworn certificates state that they live near the scene of the alleged firing, Wesley Walker's mill, that all the firing that was done at the place specified was by the Revenue officials themselves, shooting off their own pistols, that there was no excitement among the officials when the firing took place except the loud and boisterous talking indulged in by themselves, most of them being in a state of intoxication, and that no one in the neighborhood believes they were fired upon. One of the sworn certficates is signed by fourteen Republicans who denounce "the false representations of unworthy officials," and call upon President Grant to banish them from the service of the Government.

The *Piedmont Press* states that Hon. W. A. SMITH has taken certified copies of these affidavits to Washington City and will present them to the Department.

Cotton Factories in the South.

We have written much on this subject, and expect to write much more. It is by no means exhausted.

We shall ask the Legislature when it meets in November to second our efforts, by giving the same advantages to our manufacturers that the State of Georgia now enjoys. Much of the present prosperity of the Empire State of the South is due to the fact that she has erected since the close of the war a large number of cotton factories—all of which without exception are paying enormous profits. These enterprises are building up large cities in Georgia—giving honest employment to thousands of poor laborers—encouraging home industry—consuming home products, and bringing immigration, capital, and prosperity to the State.

North Carolina has better facilities for establishing manufacturies than are to be found in Georgia. She has the great desideratum—superior water-power. She is by nature better adapted for a great manufacturing State. But Georgia has far out-stript her in the race of material improvement.

Not only in Georgia, but in Alabama and Virginia, and perhaps other Southern States, we have not the statistics at hand, cotton factories have paid very handsome dividends since the war. In no instance that we have noticed have the net profits been less than twenty per cent. on the capital invested. In almost every instance they have exceeded that per cent.

We notice with pleasure that two of our cotemporaries, the Greensboro *Patriot* and the Charlotte *Observer*, are urging with strong arguments the establishment of cotton factories in North Carolina. We shall make extracts from their articles hereafter.

POOR GIRLS.—The poorest girls in the world are those who have never been brought up to work. Rich parents have petted them, they have been taught to despise labor, and to depend upon others for a living, and are perfectly helpless. If misfortune comes upon their friends, as it often does, their case is hopeless. The most forlorn and miserable women on earth belong to this class. It belongs to parents to protect their daughters from this deplorable condition. They do them great wrong, if they neglect it.

Every daughter should be taught to earn her own living. The rich as well as the poor require this training. The wheel of fortune rolls swiftly round—the rich are very likely to become poor and the poor rich. Skill to labor is no disadvantage to the rich, and is indispensable to the poor. Well-to-do parents must educate their daughters to work; no reform is more imperative than this.

M. Meyer has reported to the Academy of Sciences, France, a discovery of great value in factories where mercury is used. It appears, from his experiments, that ammonia gas modifies the unpleasant and suffocating air of silvering factories to such an extent as to result favorably on the health of the workmen. He recommends sprinkling the floors of silvering shops with a solution of ammonia.

Organ grinders are set at street-cleaning in Quincy, Ill.

The people of Montgomery county will hold a meeting at Troy, on the 8th inst., in reference to the proposed railroad to Cheraw.

The Charlotte hotels are doing a good business. There were some 80 arrivals at the Central House on Tuesday, and not a good day for travelers either.

Caldwell, Catawba, Lincoln and Gaston counties vote on the 6th of October on the question of subscription to build the narrow gauge railway to South Carolina.

The Wilmington *Journal* says the Fair of the Cape Fear Agricultural Association this fall will be the largest and most attractive ever held there. A distinguished speaker, of national reputation, will deliver the annual address.

Says the Charlotte *Observer*: "A gentleman from the country took his seat at the dinner table at the Central Hotel yesterday, and after patiently waiting for some time, coolly remarked to the waiter, who appeared to be sauntering around, "When you get thoroughly rested you can wait on me." The apparent disgust of the waiter and the roar of laughter by the guests, made the country gentleman look sober."

Says the Piedmont *Press*: "Several farmers, among others Col. S. McD. Tate, Joseph Britain, Capt. J. C. Tate, and W. S. Sudderth, have this season from five to fifteen acres each in cotton, for the purpose of seeing whether or not it will pay to raise cotton in Burke. The crops of these gentlemen look splendid, especially Mr. Brittain's, and the experiment bids fair to prove a success. The stalks are hanging full of bolls, and where fertilizers have been used it is waist high. If they succeed, it is probable, a large crop will be planted next year in Burke."

It appears that of 317 senators and representatives only about 87 are graduates of colleges. As to States, says the *Nation*, "the most notable, is North Carolina, for six of her nine members are college men, which is the highest proportion to be found in Congress, and all of them are graduates of her State University. New York has nine out of thirty-three; Pennsylvania, six of twenty-six; Ohio, five out of twenty-one. New England is not much better, having less than half; and ten States, extending in age from Maryland and Delaware to Texas and Nevada, have not a single graduate. As between the North and South and the East and West, not much can be said, for North Carolina and Nebraska are the only States which come up to the proportion of two-thirds."

It is understood that among the recommendations of the immigration commissioners to Congress will be the following: 1. The conclusion of a treaty between the United States and the principal foreign Powers which shall provide for the appointment of joint inspection agents for emigrants upon the high seas, that such agents be placed upon every ship carrying a minimum of 300 emigrants, and shall act as official intermediates between the emigrants and the captain. 2. That the railroads of the United States be compelled to dispatch immigrant trains with the same speed as regular trains. 3: That railroads of the United States be compelled to pay to the heirs of immigrants killed by accident $5,000, which sum is to be collected in the manner prescribed by most State statutes in like cases.

A verdant girl in Kentucky gorged herself with dried corn, and then, to prevent any ill effects, swallowed some copperas, which soon sickened her, and caused an upheaval which aroused the family, who thought the girl had the cholera, until she told them what she had done, saying she thought she might eat as much corn as her appetite craved, take some copperas and have no fears of cholera. She has no appetite for either corn or copperas now.

A San Francisco milliner has invented a hat which will probably sell well in cases where blushing is not so spontaneous as it might be, or used to be. When the wearer bows or lowers the head abruptly, a tiny pair of steel clamps compress the arteries on each side of the temples, sending the blood at once to the cheeks.

The Augusta (Ga.) *Sentinel* says of the Washington rumor of a duel between two distinguished Georgians that "it will be news to the people of Georgia, who are all aware of some misunderstanding between Governor Smith and ex-Governor Johnson, but who now hear for the first time rumors of a hostile meeting."

According to the advices of the Chicago *Times* the corn crop in the West this year will be far below the average. Such being the case the farmers of that locality will be spared the painful necessity of burning corn for fuel in order to get rid of it, as it is alleged they were compelled to do in past years.

More English emigrants have returned from Brazil, discontented and embittered, complaining bitterly of broken contracts.

An Omaha girl introduced a romantic mode of suicide. She stuffed her lover's letters down her throat until she suffocated.

LENOIR COUNTY.

The First Governor of North Carolina—Crops---Mode of Gathering Cotton—Sickness of a Distinguished Planter, &c., &c.

FALLING CREEK, N. C.,
Sept. 16th, 1873.

Your correspondent passed the grave of Gov. Caswell yesterday. He was the first Governor of North Carolina. He was buried near the bank of the Neuse, on the plantation formerly owned by Lewis Desmond, and now owned by Mrs. Washington Fonville, of Alamance county. No monument marks his last resting place. The citizens of Lenoir had about completed an arrangement to have one erected just about the time the late sad war broke out, but like many other noble enterprises it has been abandoned.

The crops in this county are very much damaged by the rains. I have conversed with a number of farmers who think their cotton crop will be at least one third less than an average. Corn and potatoes will do very well. One thing I notice which is new in this part of the "Old North State," and that is hay making. It is a well known fact that thousands of dollars are sent out of this part of the State for Northern hay. The farmers are beginning (?) to see that they can make all the hay they want at home. I think the day is not far distant when a lot of Northern hay in Eastern North Carolina will be a strange sight. The hay makers are making a good move towards material progress.

The mode of gathering cotton would be novel to some to some of your readers, of course all do not work alike; but most of the colored people gather cotton in bags and baskets. You will find that most of them charge fifty cents per hundred for what they pick. They carry their baskets with them in the field. When they are filled, they walk to the gin and have it weighed. I weighed the cotton for thirteen hands yesterday, and found that they made about one dollar a piece for their wages.

James M. Parrott, Esq., one of the largest planters in this part of North Carolina, resides in this county. He is quite sick at present. His physicians think he is convalescing. The health of the people generally is better than usual in this part of the State. The chills appear to have gone higher up the country.

Dr. Fess, who went to the West Indies soon after the commencement of the late war, with his family, returned to this county recently. I talked with him and his family for an hour or two. He expects to remain in the United States. His children all speak the Spanish language. The Dr. and his wife speak both English and Spanish. The Dr. thinks the Cubans will eventually triumph.

The Duellists Again.

In the Hustings Court, yesterday, the case of Messrs. John S. Meredith, Wm. R. Trigg, the seconds in the recent Mordecai-McCarty duel, came up.

The state of the case was this: Judge Moncure, of the Supreme Court of Appeals, in granting the writ of error and supersedeas to Dr. Cullen to the judgment of Judge Guigon placing him in contempt for refusing to testify in the case before the grand jury, made it returnable here at the November session of the Supreme Court, and by that very fact deprived the prosecution of the evidence of Dr. Cullen, unless the case was postponed till December—in which event the accused would go free, under the statute providing that an accused person shall be tried within three terms after his indictment, where the delay has occurred through no default of his, or be discharged.

Attorney General Taylor became aware of this fact, and he notified counsel for the accused that he would call up Dr. Cullen's appeal at the present term of the Supreme Court at Staunton. They not wishing to be taken ty Staunton to argue the matter, agreed to have the case of the seconds postponed on their motion till December, thus taking it from under the statute above referred to, and yesterday at 1:30 p. m., when the seconds appeared in the Hustings Court, their case was adjourned till 5½ p. m., to allow a telegraphic inquiry to be sent to the judges of the Supreme Court to know if such an arrangement would be satisfactory to them. Judge Christian, in behalf of the court, telegraphed back that it would be. Accordingly, at 5½ p. m., counsel for the accused moved a continuance till October (similar motions, under the agreement, to be made from term to term till December which was granted.)

Motion for bail was then made by counsel for the accused, and granted by Judge Guigon on the ground that the action of the Supreme Court, through no default of the accused, had made the delay till December, and that it would be a great hardship to keep them in prison till then, they being now ready and willing to go to trial. The amount of bail till the first Monday in October was $10,000 each, and was at once given, with Judge John A. Meredith, Col. E. D. T. Myers and Major Wm. B. Myers sureties.—*Richmond Whig*, 17th.

DOUBLE ACTING
FORCE PUMPS,
KITCHEN BROS.,
(Successors to CAROLINA PUMP COMPANY,
LOCATED IN RALEIGH.)

Are prepared to furnish at short notice the Kitchen Pumps of various sizes with Porcelain Cylinders which can't injure the water. This is a submerged deep well pump, now in use 2½ years without the expense of new packing. We make all sizes, capacity 30 to 150 gallons water per minute, working in every conceivable way and by the use of hose which can be attached in half a minute, these pumps at once become a hand engine of great power, throwing water on the roof of three story buildings, with one hand, and they will stand four to six men safely. We have not heard of one of them being overcome by fire, and yet they have been tested by over fifty fires, saving over $500,000 worth of property. For ordinary use children work them easily if set up by our printed directions, and if so set we warrant them 12 months. Our Double Suction and Force Globe Pumps, also invented by J. L. Kitchen is capable of being used as a Drive well pump and is well adapted to steamers and vessels of any class; one man can throw water on the roof of 5 story buildings. But it has a double ended lever and with four men is a very superior hand engine. The No. 2 Globe Pump is 12 inches in Diameter with 1¼ suction and 1¼ discharge pipe and throws 40 to 100 gallons per minute, according to speed. The No. 3 Globe, 7 inches in diameter. 1 inch suction and ¾ of an inch of discharge pipe, capable of 25 to 30 gallons per minute. These Globe Pumps we make of cast iron for common use, brass for salt water and block tin for the inside of houses for drinking water, they lift the water 25 feet perpendicular, and you can air it in the house and draw water from springs or wells at great distances.

All kinds of steam and water pipes fitted at short notice; hose, hose-pipe and couplings furnished here, &c.

Send for price list. The entire depth of wells with good references must accompany all orders.

Some few of these pumps have not given satisfaction but in each case it has been attributable to the maker and not the principle of the pump. We are now employing the best mechanics only, and are determined to have none other.
Address KITCHEN BROS,

MR. J. L. Dear Sir—I have had one of your Force Pumps in use for two years, and it has proved in every respect as you represented it and I would not be without it for twice the cost of it.
Yours respectfully,

GREENVILLE, April 19, 1872.
MR. J. L. KITCHEN—
Sir—I have been using one of your pumps driven from my steam engine, for supplying my tanks. I have used it continually for two years, and can confidently recommend it for any purpose where water is required. The pump is so constructed that it will last without getting out of order for years, and I have heard no complaint from any of your many pumps used in this locality for yard well pumps.
WM. S. BROADDUS.

John C. Gorman and W. C. Stronach, of Raleigh, give certificates stating that they have had the pump in use one and two years, are perfectly satisfied with it, and it has not cost them one cent for repairs.

Messrs Wilson and Waddell, at Wilson's Mills, on the North Carolina Railroad, write that the No. 2 Globe Pump, with 150 feet of 1¼ inch hose, purchased from the Messrs. Kitchen to protect their mills and sash and blind factory against fire, is the best pump they have ever seen. They will buy another as soon as it can be made, for another well. Several parties have examined their pump and will buy others like them. aug 5-D&Wit.

PREVAILING FASHIONS.—Compression of the heart, lungs, and liver.

Compression of the feet, and tipping of the heels.

Dyed, burnt and crimp hair.

Freckle erasers, balm, rouge, eyebrown dark, lip, carminator and nail pink.

Belladonna to brighten the eyes and kill the sight.

A hump on the back.

Fans like daggers, and umbrellas like shillalahs, and knapsacks laboriously buckled around the wasted place called the waist.

Hair clipped on the forehead.

Floating hair.

The less brains inside the head, the more hair bought for the outside of it.

All the ornaments possible to be gotten upon the head, hands and neck.

SHE WOULDN'T SELL.—A man stopped a Tennessee woman who was driving her family through the streets en route West, and tried to buy her "rig," getting this reply:

"Stranger, yer'er a wastin' ov yer breth talkin' to me 'bout seellin' that creeter. He's too nobil a animil, and he comes down from ancesters datin' back to ther time what I can't remember. Money can't buy that thar donkey, and yer mout as well quit chatterin' yer mouth bout tradin'; besides when I smokes I smokes, and when I trades I trades, and I ain't in a bit of tradin' humor jist now. So, stranger, yer mout' as well close up yer fly-trap."

A LIEUTENANT IN TROUBLE.—The Secretary of the Navy has directed that a certain lieutenant, who lately returned from a three years' cruise on the steam corvette Benicia, in the Asiatic squadron, be sent back to that squadron with orders to report to the admiral commanding, who is to keep him there until his debts, amounting to several thousand dollars, are all paid. This unusual proceeding has been rendered necessary by the numerous financial delinquencies recently reported to the department from that quarter, and is a serious warning to other reckless debt-contractors.

It is shown by statistical investigation that the increase in communicants of evangelical denominations in the United States, from 1870 to 1872, is more than 600,000, or a little more that eleven per cent. in two years, and that, continued at this rate through the next decade, the increase will be fifty-five per cent. in 1880, or at least ten millions of communicants.

A barbarous custom has been revived in Shanghai. On account of the expected famine in Che-Kiang, several men have come before the authorities and asked permission to pray to God to avert the calamity on condition that if their prayer is not answered within a certain time they will suffer themselves to be burned. All supplications of this character were rejected.

Lucille Weston is snapping her beautiful black eyes at crowded houses in Massachusetts towns.

Travel across Rhode Island was impeded for two days last week by the booths of the State Fair.

The "Tumble" Now Complete.

NOW IS THE TIME TO GET THE ADVANTAGE, AND

ZACHARIAS & CO.'S

IS THE PLACE.

"Low prices will win," and "Small profits and quick sales" are truisms that have been satisfactorily tested by ZACHARIAS & CO., in the city of Raleigh.

By a strict adherance to these important rules, their business has increased so rapidly that necessity compells them at an early day, to commence the work of enlarging and extending their store room.

In view of this fact, they now offer their large and attractive stock of Dry Goods, Boots and Shoes, Clothing, &c., to the public, REGARDLESS OF COST.

Think of it; bear it in mind, then tell your neighbors that they are selling

Fast Color Prints at 10c. per Yard.

Stout and Heavy Brown Domestics

at 10c. per Yard.

BOOTS AND SHOES AT AND BELOW COST.

Ready-made Clothind at fabulously low prices. And all other goods (too numerous to mention,) at prices accordingly.

and see for yourselves. No trouble to show goods. Don't forget the place,

ZACHARIAS & CO.,

a few doors south of Tucker Hall, Fayetteville street.

Our goods are all purchased by a resident partner in New York, who has the advantage of the daily auction sales of that city.

They have no old stock on hand. The Spring and Summer goods, in short, every article in the store are the present Spring and Summer purchases. july25-tf
